## DETAILED ACTION

### *Election/Restrictions*

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 26, 39, drawn to a polymer and a water treatment agent comprising the reaction product of hypo-phosphorous acid and alkynes

Group II, claim(s) 27-38 drawn to a process of producing a polymer of hypo-phosphorous acid and alkynes

Group III, claim(s) 40-44 drawn to corrosion-inhibiting pigment and formulations comprising a polymer of hypo-phosphorous acid and alkynes reacting with a base or salt.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common technical feature in all groups is the polymer comprising the reaction product of hypo-phosphorous acid and alkynes. This element cannot be a special technical feature under PCT Rule 13.2 because the element is shown in the prior art. **PGPUB US 20030073805** discloses a polymer comprising the reaction product of hypo-phosphorous acid and alkynes (Claim 26):

25. A compound according to claim 1 and to any one of claims 20 to 24, said compound comprising a telomer of the formula (III):

wherein X, R and R' have the same significance as in claim 1, at least one R<sup>v</sup> in each monomer unit is selected from hydroxy, carboxy, sulpho, phosphono, amido, aceto and aryl groups or halogen;

each other R<sup>v</sup> is independently selected from hydrogen, C<sub>1-4</sub> alkyl, carboxyl, sulpho, phosphono and hydroxyl groups or carboxy-, sulpho-, phosphono- or hydroxy-substituted C<sub>1-4</sub> alkyl groups;

(a+b) is in the range 5 to 200 and n is greater than 1.

A species of the following formula (a=5, b= 1 in reference) reads on claim 26:

A telephone call was made to Martin Bruehs on 02/10/2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

Affirmation of this election must be made by applicant in replying to this office action. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
